

a Production η distribution by lifespan

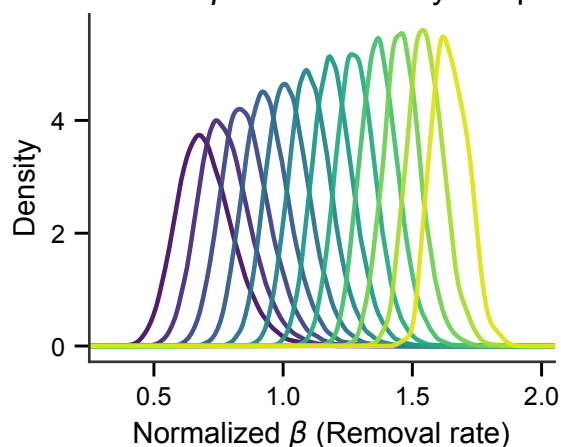

b Mean η vs lifespan

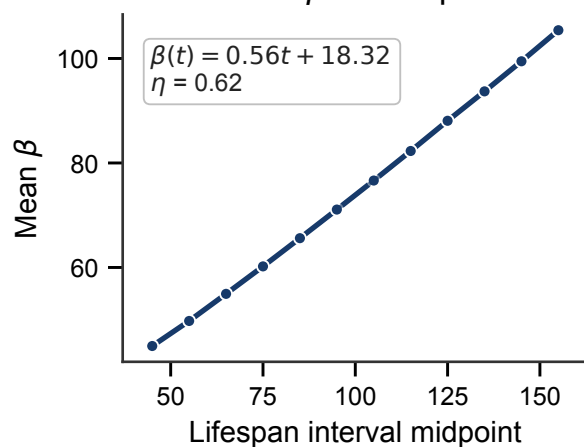

c Mortality rate (20% heterogeneity in η)

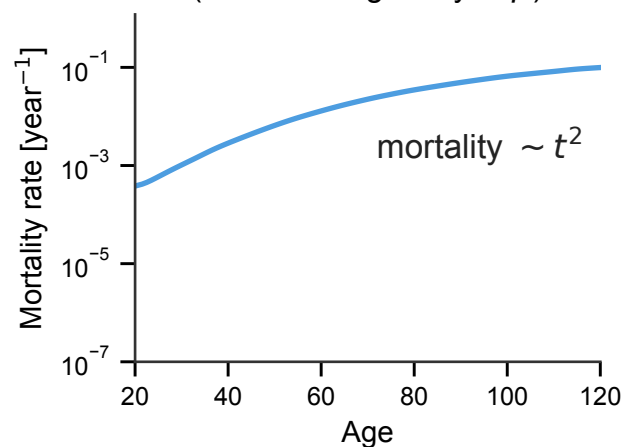

d Removal β distribution by lifespan

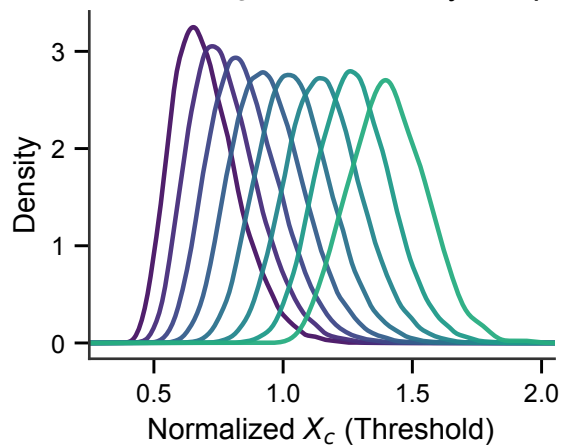

e Mean β vs lifespan

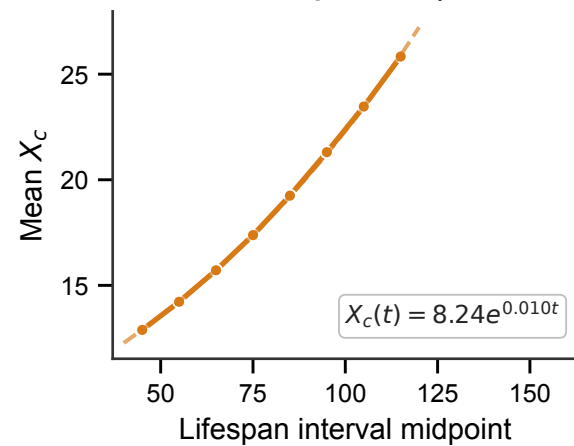

f Mortality rate (20% heterogeneity in β)

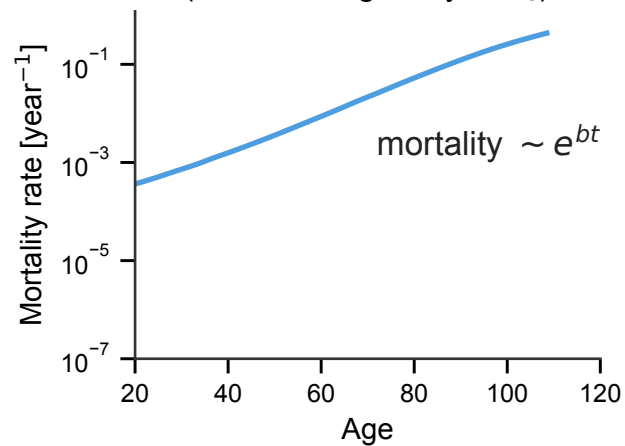

g Threshold X_c distribution by lifespan

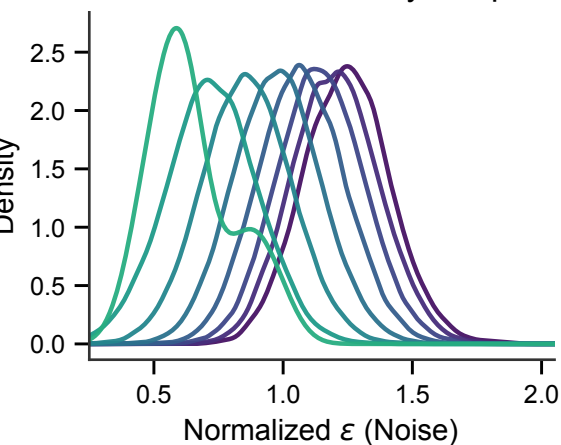

h Mean X_c vs lifespan

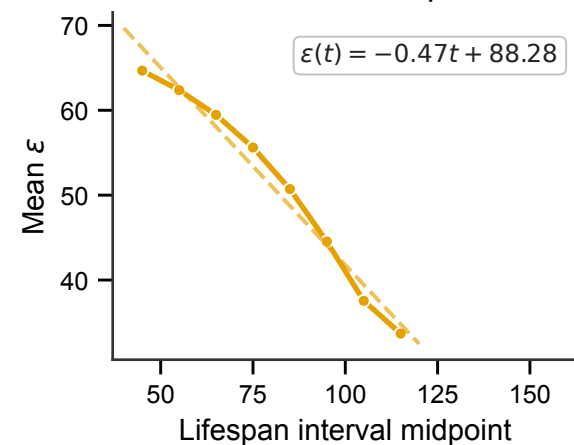

i Mortality rate (20% heterogeneity in X_c)

j Noise ε distribution by lifespan

k Mean ε vs lifespan

l Mortality rate (20% heterogeneity in ε)
